

**AT A GLANCE:**

- 34" coverage
- 0.75" rib height, 8.5" centers
- Recommended for wall & soffit applications
- 27 WXL colors, plus galvalume, 26 ga. & 29 ga.
- 32 PVDF colors, plus galvalume, 24 ga.
- A606 in stock, 22 ga.
- 2 Print Finishes: Antique Barnwood & Smooth Cedar

The MPI Board and Batten panel mimics the look of a flat wood board and a raised batten, yet is fabricated from durable, maintenance-free steel with a wide range of available WXL and PVDF colors. Available in 24 ga., 26 ga. and 29 ga., the MPI Board and Batten panel offers 34" coverage for a quicker installation than single rib panels, a neater appearance, and fewer seams. Panels may be installed vertically or horizontally.
